Course overview

These courses are mandatory requirement on all NT Government Specifications and Contracts for works within NT Government controlled road reserves, throughout the NT. These courses will give participants the theory and practical skills required to implement traffic management plans or control traffic for works on roads, parking areas and restricted access construction sites, ensuring traffic flow is maintained and risk to the safety of the public and workers is minimised.

Dress

A minimum standard of Company Personnel Protective Equipment (PPE) and clothing consisting of **fully** enclosed footwear is required.

Pre course Preparation

It is **strongly recommended** that all Students have the following before attempting this course:

- Safety Induction Awareness Program provided by Employer
- Current Drivers Licence
- Basic reading, mathematics and writing skills

Key Topics

- Plan and prepare
- Set out the traffic guidance scheme
- Coordinate traffic
- Operate radio
- Monitor traffic guidance scheme
- Close down traffic guidance scheme
- Clean up

Assessments

All students will be required to read for Traffic Management Plans (TMP) and Traffic Control Diagrams (TCD) **including completing calculations and written activities** throughout the two (2) day training session. On completion of this theory workshop students need to provide further work-based evidence of Implementation and controlling traffic for a minimum of **FOUR** traffic management plans on four separate jobs. These must include **ONE** intersection, **ONE** main road and **ONE** project controlling site construction vehicles.

Evidence is to be copies of:

- Traffic Management Plan provided on the day and, or
- Traffic control diagram used
- Site diary records - Site hazard inspection sheet
- Other Company documentation used ie Safe Work Method Statement (JSA) (JSEA)

Students will be **given two months to submit** work based evidence. Extensions of one month will only be granted under exceptional circumstances at the discretion of Earthworks Training and Assessment Services. Original evidence to be submitted in Hard copy. **Students shall retain a copy** of what was submitted as originals will be archived and not returned.

Practical assessments can be arranged through Earthworks Training and Assessment Services \$250.00 per student plus GST (conditions apply)

This program will be delivered and assessed by Earthworks Training and Assessment Services (Nat. Provider: 50590)
