

WZ1— Traffic Management Plan Designer

Course Length: Five (5) days
Course Times: 8.00am to approx. 4.00pm
Fee for Service: \$1495.00 per participant

Competency: **National Course:**
RIICWD503E Prepare Workzone Traffic Management Plans and Traffic Guidance Schemes

After successful completion of assessments the participant will be provided with a Statement of Attainment. This can be produced to any Motor Vehicle Registry (MVR) office to be issued with a personalized ID Card which is currently valid for a period of three (3) years.

Course overview

Worksite traffic management is the management of traffic movement through or past a works area with a maximum of safety and a minimum of inconvenience for both the road workers and the road user. Good management is achieved through use of standardised methods, procedures and physical layouts for routine works situations and the adaptation of these standardised methods to more complex situations.

Dress

A minimum standard of Company Personnel Protective Equipment (PPE) and fully enclosed footwear is required.

Specific Evidence Criteria - To be provided at time of course registration

- Minimum of 12 months experience in traffic management or experience in road reserve construction or maintenance
- Current Northern Territory Construction Induction White Card
- Current Australian motor vehicle driver's licence

Bring the following on day one of the course:

- Laptop with word capability (TGS drawing software would be an advantage)

Key Topics

- Establish context for traffic management plan and traffic guidance scheme
- Prepare traffic management plan
- Prepare traffic guidance scheme
- Support and review traffic management plan implementation

Pre course Preparation
