

WZ2/TC - Workzone Traffic Controller WZ3/TMI - Workzone Traffic Supervisor

Location: Darwin - Full Course

Course: WZ2/TC - (RIIWHS205E) and WZ3/TMI - (RIIWHS302E) combined Two (2) days

Course Times: Day One 8.00 am to approx. 4.00 pm
Day Two 8.00 am to completion of four practical setups (Governed by Road Authority timings)

Competency: WZ2/TC - RIIWHS205E Control Traffic with Stop-Slow Bat
WZ3/TMI - RIIWHS302E Implement Traffic Management Plans

Fee for Service \$725 per participant

After successful completion of all theory and practical assessments course participants will be provided with a Statement of Attainment that can be produced to the Motor Vehicle Registry (MVR) office for issue of a Workzone Traffic Management ID Card which costs \$30 for each certification. Northern Territory certification is currently valid for three (3) years from the date of issue.

Course overview

These courses are a mandatory requirement on all NT Government Specifications and Contracts for works within NT Government controlled road reserves throughout the NT. These courses will give participants the theory and practical skills required to implement traffic management plans or control traffic for works operations on roads, parking areas and restricted access construction sites, ensuring traffic flow is maintained and risk to the safety of the public and workers is minimised.

Course Attendance Requirements.

You are required to bring your

- General Construction Induction Training card (NT White Card or interstate equivalent).
- Australian motor vehicle driver's licence

Key Topics

Prepare to implement traffic management plan, Set out the traffic guidance scheme, Prepare to control traffic, Control Traffic and operate communication devices, Monitor traffic guidance scheme, Conduct housekeeping activities, Close down work activities.

Pre course Preparation

Prior to the course participants are encouraged to make ETAS trainers aware of any specific learning requirements (Foundation Skills) to ensure learning strategies are discussed, developed and implemented to achieve maximum participation, capacity and capability during training sessions. All course participants will need to have sound Numeracy, Oral communication, Reading, Technology and Writing, skills to complete this learning program - Note this is a high risk work area!

language, literacy, numeracy and employment skills that are essential

Numeracy	Applies basic mathematical problem solving processes, including simple addition, subtraction, multiplication and division
Oral communication	Listens to short, explicit instructions for work procedures and asks questions to clarify and confirm Presents information and provides assistance using industry specific vocabulary Uses listening and questioning to clarify and confirm understanding
Reading	Identifies and interprets information from workplace procedures, documentation, legislation and regulations
Technology	Identifies purposes, specific functions and key features of common digital systems and tools and operates them as required
Writing	Produces and completes workplace reports using appropriate vocabulary, grammatical structures and conventions

Personnel Protective Equipment (PPE) - applicable to environmental conditions at day of course - must be worn

Course participants are required to wear clean clothes and PPE to training. PPE is the minimum clothing and footwear requirements to be worn for all ETAS training courses and as per your PCBU / Employer Policies and Procedures. PPE must be compliant with Australian Standards and the NT Work Safe Code of Practice for Construction Work (High Risk Work). See to next page.

Assessments

All course participants will be required to read and interpret Traffic Management Plans (TMP) and Traffic Guidance Schemes (TGS) before implementing them at workzones. This also includes completing calculations and written activities throughout the training session. On completion of the theory workshop participants will be required to Implement and control traffic for a minimum of three (3) separate live road projects involving one (1) construction site vehicles.
